SUMMARY CV

Evian Gordon, M.D., Ph.D.

Dr. Evian Gordon is the Executive Chairman of Brain Resource. He established an "**Integrative Neuroscience**" approach, grounded in the use of standardized methods across multiple types of brain data in a single platform, with over a million datasets. He founded the *Brain Resource Company* that created the **first standardised international database on the human brain** (over 300 publications). The database is the asset which shaped *TotalBrain.com* for brain health and peak performance, used in Wellness Programs in over 30 Fortune 500 Companies, in over 600,000 employees (including Boeing, AARP, Cerner). The first genetics Test using this methodology (in 1700 patients) for treatment prediction in Depression, is currently being completed for potential use in clinical practice.

He has published over 300 scientific papers and three books:

Integrative Neuroscience; The Brain Revolution; Integrative Neuroscience and Personalized Medicine.

Dr. Gordon is based in San Francisco.

CURRENT POSITIONS

- **Executive Chairman**, Brain Resource Limited (BR) and Total Brain.
- **Principal Investigator** of largest International Study To Predict Treatment Response in Depression and ADHD. The first genetic "Test" from this study is being completed. It would be the first objective Brain Test to predict treatment response in Psychiatry.
- **Scientific Chairman and Founding Director** Brain Dynamics Centre (BDC) Westmead Hospital. Over 450 scientific publications have been published from this Centre.

Dr Gordon established the **first standardized International Database on the Human Brain**. Currently over 250 scientists are linked to the BR international consortium via the independently

governed network, BRAINnet (www.brainnet.net). Over 80 labs, across 13 countries, use BR methodology. Over 300 scientific publications have emerged from the international database.

TERTIARY QUALIFICATIONS

The University of the Witwatersrand
1982 PhD
1979 MBBCH
1976 BSc Hons (First class pass)
1975 BSc

ACADEMIC POSITIONS

2002- Adjunct Associate Professor, Sydney Medical School - Western, University of Sydney.

1988-2003 Senior Lecturer (tenured full time), Department of Psychological Medicine, University of Sydney

Teaching and administrative roles included:

- a) Postgraduate Coordinator
- b) Department representative on the Faculty Postgraduate Research Committee
- c) Coordinator of annual research report
- d) Convenor of Neuroscience Research Stream
- e) Convenor of new PhD programme in neuroscience
- f) Lecturing roles – including lectures to medical students (at Westmead Hospital) on cognitive neuropsychiatry, and to psychiatry registrars on models of the brain and their application to clinical disorders (10 lectures per year)

1982-2002 Founding Director, Brain Dynamics Centre, Westmead Hospital

FACILITATORY RESEARCH POSITIONS

2006- Member of the Society for Neuroscience

2006- Member of the International Pharmaco-EEG Society

2005- Associate Editor International Journal of Integrative Neuroscience

2005- Member of the World Federation of Societies of Biological Psychiatry

2002- Member of the Organization for Human Brain Mapping

2001- Member of the Brain Research and Integrative Neuroscience Network

- 1998-1999 Convenor of The Central Brain Computational Facility (multi-department facility situated in the Department of Nuclear Medicine at Westmead Hospital)
- 1998-1999 University representative and Head of Neuroimaging panel on NSW Neuroscience Institute for Schizophrenia and Allied Disorders

AWARDS

- 2015 Boeing – Corporate Supplier Performance Award
- 2015 Invisible Disabilities Association's Innovation Award
- 2003 Royal Societies of Australia Eureka Prize for Interdisciplinary Scientific Research
- 1995 Rotary Clubs of Australia Mental Health Research Award
- 1983 Andries Blignault Memorial Medal

PATENT APPLICATIONS

Patent application number	Description	Published
20150366501	WHITE MATTER DIFFUSION TENSOR IMAGING TEST TO PREDICT TREATMENT OUTCOMES IN MEDICAL TREATMENT - The present invention relates to the field of biomarkers and in particular to their utilisation in treatment. Embodiments of the invention have been particularly developed as biomarkers enabling optimisation of treatment regimes and as uses of the biomarkers in tests for the prediction of optimised treatments and treatment outcomes in the treatment of Major Depressive Disorder (MDD).	12-24-2015
20150190083	Biomarkers For Treatment Outcomes - The utilization of biomarkers, which include objectively measurable and assessable indicators of a biological process or biological state, in treatments is disclosed. Particularly, biomarkers enabling optimisation of treatment regimes and the use of the biomarkers in tests for the prediction of optimised treatments and treatment outcomes in the treatment of Major Depressive Disorder (MDD) are disclosed. Measurable and assessable cognitive and/or genomic parameters can be biomarkers indicating changes in system severity of MDD.	07-09-2015

20140187996	Electrodermal Measurement System And Method - A method of determining the conductance of the skin of a human or animal, the method including the step of: (a) eliminating any equivalent parasitic voltages in the skin by taking multiple different measurements of the conductance utilizing different probe voltage levels, (b) calculating the conductance from the sampled results of the multiple different measurements.	07-03-2014
20140121547	Pulse Sensor Measurement System And Method - A sensor device for transcutaneous monitoring a blood flow within a human or animal, the sensor device including: a microphone for picking up pneumo-acoustic changes; and a diaphragm interposed between the microphone and the surface of a user when in use, forming a sealed cavity between the microphone and diaphragm surface.	05-01-2014
20110046978	DATABASE DRIVEN RULE BASED HEALTHCARE - A method is disclosed for rule based healthcare for use in the treatment of a patient. The method includes (a) providing a storage means for storing data indicative of a plurality of decision states, (b) presenting at least one query associated with a decision state, (c) receiving a corresponding at least one response to said at least one query, (d) comparing said response to a plurality of predefined responses ranges for selecting a new query associated with a new decision state, (e) transitioning to the new decision state, and (f) repeating steps (b) through (e) until a terminating decision state is reached.	02-24-2011
20090203607	Method And Compositions For Simultaneously Regulating Memory And Mood - The present invention is concerned with methods and compositions for simultaneously treating or modulating memory and mood within the same individual.	08-13-2009

INVITED LECTURES AND CONFERENCES

Upcoming Lectures and Conferences

- 2016 Mexico Society for Bio and NeuroFeeback, Two lectures: 1) Brain-based Mindfulness and Biofeedback, 2) Biomarker-based Prediction to Treatment in Depression, Anxiety and ADHD, Mexico City, Mexico, November 22-25
- 2016 Western Association for Biofeedback and Neuroscience, Keynote Speaker, San Francisco, CA, November 4-6

2016 EO NERVE, Boston, MA, September 28 – October 2016

2016 EO Thrive, Chicago, IL, September 19-21

Past

2016 West Coast Symposium on Addictive Disorders (WCSAD), Presentation: Digital Brain Health Advancements to Assess and Enhance Outcomes in Recovery, La Quinta, CA, June 2-5

2016 Experiential Technology & NeuroGaming Conference and Expo (X Tech), Panel Discussion: Meditative Minds for Expanding Human Potential, May 17-18

2016 Innovations in Recovery, Presentation: Know and Train Self-Regulation to Aid Recovery: Proof Points, San Diego, CA, April 4-7

2015 Brain Futures Conference, Panel Discussion: Personalized Medicine: Neuroimaging, Genetics and Other Measures for Screening, Diagnosis and Improved Treatment Selection, Annapolis, MD, November 4-5

2015 EO Conference, Talk: The Brain and Leadership, Arlington, VA, November 3

2015 Brain IDEAS Symposium, Talk: Why is it Impactful to Know and Train Your Brain, Denver, CO, October 23

2015 CCA - Analytics & Open Data (MBA Program), Talk: The Brain and Big Data, San Francisco, CA, October 16

2015 Moments of Change, Presentation: Digital Brain Health Advancements to Assess and Enhance Outcomes in Recovery, Palm Beach, FL, September 28- October 1

2015 Burning Man, Presentation at Red Lightning Camp: Brain, Black Rock City, NV, September 1-6

2015 NCAD, St. Louis, MO, August 1-4

2015 Innovations in Behavioral Health, Presentation: Digital Brain Health Advancements to Assess and Enhance Outcomes in Recovery, Nashville, TN, June 22-23
